Employment Tips

Picking up and Filling out the Application

Be careful, your application may be the first and only impression, and most often determines who will be called for an interview.

- Always print in black or blue ink or type.
- Always read the application (carefully follow directions).
- Answer all questions. If they do not apply to you, write N/A (not applicable).
- Make certain all information is correct.
- Be sure there are no smudges, erasure marks or cross outs on your application.
- Use correct spelling.
- Keep it positive! Never give negative answers. If necessary, you can explain at the interview.

Be sure to know the following information (you may want to have the following data on a card in your wallet).

- A telephone number where you can be reached.
- Names, addresses, and phone numbers of previous employers.
- Positions you held at each job, dates you worked, and wages paid.
- Schools you attended and the locations and dates you attended.
- Social Security Number.

References: A professional reference is a reference from a person who can guarantee your qualifications for a job. A professional reference is typically a former employer or co-worker, a supervisor or someone else who can recommend you for employment (not a family member). Use business people, former teachers, counselors, employers. Know full names, current addresses, titles, and phone numbers. Inform the people you will be listing as references that they may be contacted.
Resume

- List all employers starting with current or most recent.
- Do not use pronoun phrases, such as “I am”, or “I have”. It is a given that statements are about you.
- Use words that communicate success at a job and how well you did at that job.
- Keep your resume to one page.
- Have references available but do not list them on the resume. Include the phrase “References Available Upon Request”.

Interview outfits

**DO**

**Business casual**
This interview look would be appropriate for these industries: IT, startups, teaching, entry-level government positions, environmental engineering, aerospace (non-management), architecture, healthcare/life sciences research, social media, advertising/PR and retail.

- Detail adds interest but doesn’t distract
- Sweater and pants fit well
- Casual, yet polished
- Pants are appropriate length for heels

**Business professional**
This more formal interview look works for these industries: healthcare management and sales, hospital administration, biotechnology, banking, personal financial services, academic administration, hospitality, pharmaceutical sales and aerospace management.

- Blouse color, collar style go well with the suit
- Minimal jewelry
- Jacket not too short, not too long
- Tip: Check yourself in the mirror before leaving the house
- Could wear heels rather than flats to increase formality

**DON’T**

- Necklace too large
- Tip: Avoid any bright or patterned clothing that may be distracting
- Too tight
- Too informal: this would be a better outfit for shopping at Pike Place Market (with different shoes)
- Cotton capris: too casual

Meet the experts
Local career experts Lisa Quast, CEO of Career Woman, Inc., and Josh Warborg, district president of Robert Half International, provided critiques of these outfits.

Quast: “Appropriate attire depends on the industry and company in which you will be interviewing, the geographic location and time of year.”

Warborg: “Suits in conservative colors, such as black, gray or navy, paired with light, solid-colored shirts are a safe choice.”
