## 2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

<b>Admission Requirements for the University of California (UC)</b>	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <a href="https://admission.universityofcalifornia.edu/">https://admission.universityofcalifornia.edu/</a> .
<b>Admission Requirements for the California State University (CSU)</b>	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <a href="https://www2.calstate.edu/">https://www2.calstate.edu/</a> .

### 2024-25 School Description and Mission Statement

BASES Learning Center opened in the fall of the 2019-2020 school year to support students with disabilities that affect their behavior and their social-emotional competence.

BASES Basics

- We provide the most restrictive school environment in the county for students with disabilities whose behavior and/or lack of social-emotional competence is impeding their academic success.

## 2024-25 School Description and Mission Statement

- Our overall goal is to teach students how to appropriately deal with their emotions and choose positive coping strategies in order to return to a less restrictive environment fully equipped to self-regulate and self-advocate.
- Our program is grounded in positive relationship-building. We focus on strengthening students' social-emotional skills as well as using a behaviorist approach to building competencies.

### BASES Vision

BASES inspires acceptance and support of all persons by collaborating with district and community partners to provide a consistent, compassionate and authentic learning environment in which students are able to consistently grow their social-emotional competence providing a foundation to be successful in all areas of life.

### BASES Mission

Every day we strive to be a village of educators that:

- Builds relationships with students by providing a structured, consistent and nurturing environment
- Energizes the positive abilities of our students
- Teaches social-emotional and behavior skills to build student resilience
- Facilitates engaging, individualized learning experiences utilizing creativity and play
- Practices continuous staff reflection including transparency with empathy in order to improve our own social-emotional competence and better support our students

BASES utilizes a wide variety of social-emotional programs and curriculum in addition to the regular academics. Some of the programs include, but are not limited to, Nurtured Heart Approach, Life Space Crises Intervention, Why Try and Pawsitively SEL. Our school wide PBIS program includes daily positive reinforcement and behavior incentives as they relate to their IEP goals and other goals set collaboratively with staff. Student progress both academically and behaviorally is tracked each period daily with changes in student progress addressed individually, in counseling, through SEL lessons, or through the IEP process itself. BASES staff is in continuous communication with feeder districts in terms of student progress and likelihood of student success in transitioning to a less restrictive environment.

### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

## 2020-21 Teacher Preparation and Placement

## 2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

BASES Learning Center serves students from 3rd through 12th grade and utilizes the textbooks and instructional materials for the elementary grades provided by the local district where the school is located. All materials are state-adopted. Grades 7-12 utilize an online platform to provide core instruction that was adopted by the local governing board. All students have access to core materials, which are supplemented by research-based programs with the various methodologies necessary to assist with meeting IEP goals and appropriate intervention. In addition each student is assigned a 1:1 Chromebook in order to access any online curriculum programs or components. Supplemental curriculum is provided in the areas of college and career readiness, life skills, social-emotional learning, and other resources to support student growth within an educational setting for meeting behavioral and social-emotional IEP goals.

## School Facility Conditions and Planned Improvements

BASES Learning Center is on the campus of Eastside Elementary School in Oroville City Elementary School District. The school is currently described as being in "good" condition on almost all indicators of the Facility Inspection Tool, which was updated in November 2024. Significant campus upgrades were completed during the 2019–2020 and 2020–2021 school years, including installing new doors and locks and updating flooring and carpeting. In the fall of 2020, a full perimeter fence with modernized gates was added to enhance campus security. Additionally, a new playground area was installed in winter 2022. With these additional improvements, we are confident that students at BASES are safe before, during, and after school. The school is regularly cleaned by a professional cleaning service with periodic deep cleanings. In addition, there are sufficient classrooms, playgrounds, and staff spaces to support teaching and learning.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

### Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

<b>Mathematics</b> (grades 3-8 and 11)	--	--	25	26	34	35

### 2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. ## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2023-24 Career Technical Education Programs

While BASES Learning Center is not a comprehensive high school with typical CTE pathways options, students at BASES do receive services through WorkAbility1 as appropriate for their unique needs.

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2024-25 Opportunities for Parental Involvement

Because social-emotional issues are often linked to family relationships, the BASES Learning Center Team involves parents and guardians in the therapeutic and educational process, sharing in the responsibility for student progress toward learning and social goals alike. Parents and guardians receive regular communication from school administration and classroom teachers on school calendars and events through email, Facebook posts as well as prerecorded calls. All parents and guardians as well as other community providers are encouraged to become active participants in the therapeutic process through the Child/Family Team meetings, IEP meetings as well as individual Social Work services provided through our BASES Clinician. Parents of students at BASES are invited to participate in professional development activities hosted by the Butte County SELPA Community Advisory Committee several times each year. They can learn more about these opportunities by contacting the school principal, Melanie Quave at 530-532-5844 or at [www.buttecountyselpa.org](http://www.buttecountyselpa.org). This year's topics included understanding trauma, suicide prevention and addressing behaviors in the home setting.

## C. Engagement

### State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school Dropout Rates;
- High school Graduation Rates; and
- Chronic Absenteeism

## 2024-25 School Safety Plan

The BASES team reviews and updates its comprehensive school safety plan by March 1st of each year for the following year. The safety committee met and approved the 23-24 plan on 3/20/24. For the 2024-25 school year, the BASES Team is scheduled to meet on 2/27/25 to review and approve the comprehensive school site safety plan.

## 2024-25 School Safety Plan

Every year BASES reviews and updates the school safety plan, including a description of its key elements. Staff and parents have input into the process, and as revisions are made, students are informed of new information or trained in new procedures. The key elements include mitigation and prevention, preparedness, response to crisis, and recovery. Specific steps for response to a variety of possible crises are included in the plan. Regularly scheduled drills are held to teach and reinforce procedures for fire, earthquake, and lockdowns. Safety meetings are routinely held to document any safety issues and their resolution.

## Fiscal Year 2023-24 Types of Services Funded

BASES Learning Center utilizes the resources of the larger Butte County area community to make it possible for students to stay close to their home school district while receiving an appropriate level of intensive counseling services and behavioral supports based on their individual challenges. All of the BASES services are funded through direct billing to each district that has students enrolled in our program. We collaborate with school psychologists from districts within the county and provide

mental health clinician support for the full school day. We also collaborate with outside counseling agencies through behavioral health and drug rehabilitation professionals if needed, to provide a high level of psychological support to each student at BASES. Because social-emotional issues are often linked to family relationships, BASES involves parents in the therapeutic process, sharing the responsibility for student progress toward learning and social goals alike. Additionally, our school contracts with a Board Certified Behavior Analyst to provide Registered Behavior Technician supervision. We also contract with outside behavior and trauma experts to ensure we are providing a holistic approach to students with disabilities that affect their social-emotional and behavioral growth.

The dynamic, close-knit team at BASES Learning Center collaborates across the school site to support students through communication, compassion, and accountability. The team includes:

- One Credentialed School Principal
- Three Credentialed Teachers
- One Licensed Mental Health Clinician
- Board-Certified Behavior Analyst
- Embedded Counseling and Behavior Supports
- Two Registered Behavior Technicians
- Numerous Paraprofessional Staff
- District Multi-Disciplinary Teams
- SELPA Program Specialist and Director Support
- WorkAbility1 Program Staff
- Mental Health Coordinator and Clinician Supervisor Support
- Contracted Nursing and Custodial Support

This collaborative structure ensures that students receive comprehensive academic, behavioral, and emotional support tailored to their individual needs.

Students who are eligible for services have access to the WorkAbility1 Program on campus and School to Career education. Opportunities available may include: job coaching; resume and interview workshops; interest inventories; career counseling; and paid employment experience.

## Professional Development

Student needs, IEP systems and processes, and safety needs for our unique student population, drive the types of professional development carried out at school and the types of conferences staff need to attend. Teachers, clinicians, behavior staff, and paraprofessionals are supported through implementation coaching and have a weekly shortened day to provide additional debriefing and professional development.

For the 22-23 school year, the staff as a whole will participate in 13 PD days spread throughout the year on Applied Behavior, Nurtured Heart, and the Stress Response Cycle. All teachers are new and are currently working on their teaching credentials. Through the SELPA connection, 30 PD sessions are being provided on lesson planning, differentiated instruction, IEP writing and facilitation, classroom management strategies, and Universal Design for Learning. The clinician and school psychologist will participate in an additional 5 days of training in the areas of Dialectical Behavior Theory, organizational therapeutic trauma response, and understanding strategies for working with defiant and socially maladjusted youth.

For the 23-24 school year, the staff have participated in 7 days of Nurtured Heart training. Throughout the year, the staff as a whole will participate in 3 trainings on the Stress Response Cycle. Through the SELPA connection, 30 PD sessions are being provided on lesson planning, differentiated instruction, IEP writing and facilitation, classroom management strategies, and Universal Design for Learning. The school psychologist and both clinicians will participate in an additional 6 days of training in the areas of Suicide Prevention, organizational therapeutic trauma response, understanding strategies for working with defiant and socially maladjusted youth, as well as Dialectical Behavioral Theory training.

In the 24-25 school year, the staff completed several safety trainings, including CPR and Basic First Aid, CPI, and Stress Response Cycle training. In addition, the team collaborated with the larger BCOE community of schools by attending a 2 day "Come to Pieces" training focused on consistent structure in the classroom, specifically for classrooms serving students with disabilities. Weekly, the team participates in ongoing PD in the areas of evidence-based instructional strategies, functions of behavior and protocols, trauma-based interventions, Nurtured Heart, and supporting secondary trauma. Two additional days are spent on individualized interventions for our students based on their IEPs. Each semester, two half-day training sessions are provided in various areas.

This table displays the number of school days dedicated to staff development and continuous improvement.
