

## Butte County SELPA

Application to become a Representative

### Community Advisory Committee (CAC) for Special Education

#### About the CAC:

The Community Advisory Committee (CAC) is made up of parents, school staff, and other citizens who are concerned with planning for the education of students with disabilities or other special needs who attend school in Butte County. Involvement of parents is especially significant; the CAC is their opportunity to influence the planning of their own and other children's special education.

A CAC is mandated by the California Education Code which states that each Special Education Local Plan Area (SELPA) must include an opportunity for community input. The Butte County SELPA includes all of the school districts in Butte County plus the County Office of Education, which administers the Local Plan.

The CAC reviews the local Plan for Special Education and annual priorities and budget, provides for parent support in the special education process (IEP), supports activities for and by individuals with exceptional needs, and encourages the development of community awareness of those with special learning needs.

The CAC hold regular meetings, sponsors workshops and parent groups, networks with other CACs, and recognizes outstanding achievements at the annual awards ceremony.
